Contact Information

Dr. Tracy Kocher

Hello! Welcome to this course!

This course is a programming course dedicated to the Javascript Language. I'm here to guide you as you go through this class. If you are not familiar with online courses or using Canvas, I suggest that you start by reviewing **the Canvas Look-around Course** (https://canvas.chaffey.edu/courses/3314) .

You will learn the basics of Javascript programming by working on projects and reading and reviewing the resources and material provided. The points for the class come from weekly quizzes, discussion, and projects.

Please contact me or visit me if you have any questions!
